

# CRIMSON *Projects*

Crimson Projects partners forward-thinking companies with skilled students eager for professional experience.

**Internship projects tackle real company needs  
through mentored learning objectives  
with paid and no cost options available!**

This program provides student teams with specified outcomes in the following disciplines:

- DATA ANALYTICS
- DATA RESEARCH
- PRODUCT MANAGEMENT
- SOFTWARE DESIGN AND DEVELOPMENT

Projects run fall and spring semester and opportunities are posted early June and August
